## River Cane Flute

Without a doubt the best river cane flute Crazy Crow has ever offered. In terms of clarity, tonality, and ease of playing, this is an absolute must have. We have given you the option of three keys (A,C,and E). These flutes naturally have a smaller diameter which gives it its' distinctive clear tone. The 5 holes keep the desired pentatonic scale. The bamboo used is very resistant to warping and will keep its shape. The bamboo is finished with a safe natural lacquer and wrapped with waxed twine for added color accents. The River Cane Flute is apparently simple, but its sound has a special quality that can equal the most high dollar wood flutes.

## River Cane Double Flute

This double flute is the bamboo model created following the essential shapes of the Native American Flute. Its main characteristics are the two chambers where the air passage happens through a block that directs the air to the whistle. This feature gives the flute a soft sound and is very sensitive to blowing variations. Each flute is tuned to the minor pentatonic scale which gives it the unmistakable Love Flute sound. The Native Flute has powerful vibrational characteristics allowing the player to use their emotional and spiritual voice. It is a fast learning flute, which facilitates musical initiation for people who have never played an instrument. Flutes are finished with a natural safe lacquer and accented with waxed twine.
